About me

Passionate about technology and problem-solving, I thrive in dynamic environments where I can apply my technical expertise and creativity. With experience in software development, troubleshooting, and customer support, I enjoy building projects in Python, C#, and web technologies, continuously expanding my skills through hands-on learning. Outside of coding, I have a keen interest in video editing and enjoy staying active through volleyball, bringing the same teamwork and adaptability to both my professional and personal pursuits.

Experience

Software Development Bootcamp
November-2024 - Present | Central London

Developing responsive websites using HTML, CSS, and JavaScript

Designing and managing databases with SQL

Building projects using Python and C#, applying object-oriented programming principles

Learning .NET framework to develop robust and scalable applications

Gaining a deeper understanding of algorithms and data structures to enhance problem-solving skills

Working on real-world projects to strengthen software development expertise.

Grove Park Library / Librarian
March-2024 - Present | Grove Park

Assisted patrons with locating materials, answering inquiries, and general support

Managed check-ins, check-outs, and renewals at the circulation desk

Organized and shelved books, ensuring accurate classification and order

Supported cataloging and processing of new library materials

Monitored and maintained library resources, assisting with repair or replacement

Conducted inventory and helped weed outdated or unused materials

Bose / Tech Support

August-2023 - January 2024 | Chatham

Providing technical support and assistance to customers via phone, email, chat, or in-person interactions.

Troubleshooting and diagnosing technical issues with Bose products, including headphones, speakers, and sound systems.

Guiding customers through step-by-step solutions to resolve software or hardware issues they encounter.

Documenting customer interactions, including issues reported and solutions provided, in the company's CRM system.

Collaborating with other technical support team members to share knowledge and best practices for problem-solving.

Sidequest / Internet cafe Night Shift Supervisor

March 2023 -August 2023 | Charing Cross

Resolving issues that customers have whether it be software or hardware within the store.

Managed and maintained computed systems, equipment by troubleshooting hardware and software issues, cleaning out keyboards and wiping down computer services.

I made and served hot meals and beverages, including boba, green tea, and blended beverages.

Ensuring and keeping an exact record of inventories from the store, including ingredients. Constantly checking on what's low and making sure to report it to the manager to keep the shop operating well.
